babyprezza®

The automatic Baby Formula Dispenser

The first machine in the world which **prepares the Bottle from A to Z automatically!**
Measuring, heating and mixing are done automatically in a few seconds.

Main characteristics:

- Universal: can be used with 99.9% of infant milk powder brands*
- Found your calibrations on the website:
<https://babyprezza.eu/pages/formula-pro-settings>
- Safe: the powder is automatically and precisely measured out by the machine, no risk of dosage error
- Hygienic: the powder is stored in the hermetically sealed container
- Many choices of ml: 60 to 300 ml (per groups of 30)
- Three choices of temperature: 22°, 37° or 40°

*Some special powders may cause lumps. In this case, shake the bottle well before serving. Some alternative powders, such as vegetable powder and rice powder, are not all compatible with this product

	Length	Width	Height
